Assembly Instructions for Cheval Mirror Item # 18

Contents:

1- Stand	2- 3 1/2" Bolts
1- Mirror	2- Barrel Nuts
1- Mirror Oval Frame	4- Plastic Washers
1- Mirror Backing Plate	10- 5/8" Screws
1 - Cross Support for Stand	1- 2 1/2" Wood Screw

Please visualize how all the components fit together per the illustration and make sure that you have everything identified. Please inspect the parts for possible shipping damage and for any missing items. If you suspect that there could be a problem, contact us and we will help you.

1. First assemble the Mirror. Remove the paper from the reflective side of the Mirror and place Mirror in the recessed side of the Mirror Oval Frame. Place the Mirror Backing Plate over the Mirror and exactly line up the ten small holes and two larger holes. Screw in the ten 5/8" Screws to secure it. Now lay the assembled Mirror Oval Frame upside down on a carpeted floor.
2. Insert one of the Barrel Nuts into each hole in the rear of the Mirror Oval Frame. Put the smooth side of the Barrel Nut in first so that the slotted side is showing and align the longest slot toward the bolt hole. You should be able to look into the smaller holes and see the threaded opening in the Barrel Nuts. If necessary, rotate the Barrel Nuts so that they line up perfectly.
3. Lay the Stand in the correct position outside the Mirror Oval. Place a Plastic Washer on one of the Bolts and push it in the hole from the outside of the stand. As the Bolt comes through the stand, add another Plastic Washer between the Mirror and the Mirror Oval Frame. Continue screwing in the Bolt until it is threaded into the Barrel Nut. Repeat this procedure for the other side.
4. The Cross Support for the stand slides in to place until all four feet are level. If it does not slide all the way in, rotate it one half turn. Screw in the 2 1/2" Wood Screw through the pre-drilled hole underneath the center of the Cross Support and into the Mirror Oval Fame until tight.
5. Place the assembled Cheval Mirror upright on a level surface. Tighten the Bolts as needed to adjust the tension on the mirror pivot so that it will stay in the preferred position. The mirror pivot mechanism is designed for easy adjustment and may occasionally need to be tightened. The mirror is not designed to be used as a toy and spun around. If children are allowed to spin the mirror around, the bolts may unscrew themselves and fall out.

If you have any problems with assembly, please call us and we will help you.

The finish is a water-based acrylic paint. It is non toxic and safe for children. There may be an odor when first unpacked. It will dissipate more rapidly with warmer temperatures and air movement. The mirror is shatterproof acrylic, not glass, and is more susceptible to scratching than glass. Clean all surfaces carefully with a non abrasive cleanser and a soft cloth

All of us at Little Colorado, Inc hope that you and your little ones enjoy this Cheval Mirror for many years.
Please call us if you have any questions.
